

Supply voltage:	12-24V AC / DC
Power consumption:	less than 1W
Outputs number:	1
Outputs type:	relay
Max load:	6A 24V AC 6A 24V DC
Inputs number:	3
Inputs type:	logical, closed to COM
Inputs voltage:	12 - 24V AC / DC
Galvanic isolation:	Yes, optical
Inputs polarization:	detected automatically
Housing:	made of polyurethane composition not containing halogens, self-extinguishing for thermal class B (130 °C)
Protection Rating:	IP20
Mounting:	in the flush-mounted box (deepen or double) in the receiver case.
Transmission:	bi-directional, encrypted
Transmission frequency:	2.4GHz
Communication standard:	μWiFi, compatible with WiFi
Communication mode:	Wi-Fi connection via a standard router
Control output type:	relay NC/NO
Maximum power:	144VA @ 24V AC 144W @ 24V DC
Measurements:	39 x 39 x 22 mm
